The number before a colon (:) refers to the *BRI* Number; numbers after the colon refer to entries within that Number, and are separated by semicolons (;). In several cases the entries in *BRI* Numbers 9 and 10 are longer than usual for *BRI* listings, spanning several pages. It is therefore sometimes necessary for the reader to scan a long entry in order to find the reference to an indexed item. The editor regrets any inconvenience to the reader.

Letter codes indicating type of format and status (see front cover) are added only to main entry items.
